REQUESTING SERVICE

Follow these simple steps when you need to order, change or stop your telephone service. Call our Customer Contact Center and speak with a customer service representative. Please be prepared to provide the following information:

- Your full legal name.
- Your street address.
- Employment and credit information.
- Types of services you want.
- Your choice of long distance company(s).
- Information regarding your previous telephone number.
- How you want your name to appear in the directory.

COSTS TO BEGIN SERVICE

A one-time fee is charged to install or change your service. The use of telephone service for business purposes automatically subjects that service to business rates regardless of the type of premises where the telephone is installed. An advance payment or deposit may also be required.

If you need inside wiring or jacks, you have three options:

- You can have CenturyTel do the work at the cost of time and materials. Call our Customer Contact Center for a cost estimate.
- You can hire an independent contractor to do the work.
- You can do the work yourself.

CONNECTION CHARGES

Certain installation charges apply according to work performed. Charges could include:

- service order charge
- central office connection charge
- line connection charge
- wiring charge
- premise visit

DEPOSIT REQUIREMENTS

A deposit may be required from new applicants for service to guarantee payment for the service. If desired, the deposit may be paid in two equal installments. In lieu of a deposit, the Company will accept the written guarantee of another qualified customer.

The amount of a deposit will not usually exceed the amount of one month's local service and two month's toll service. Interest on deposits is credited to customer's accounts in January for the preceding year.

For existing customers, a deposit will be required or increased if service is suspended two times in a 12 month period; the customer failed to pay a bill before the close of business on the shut-off date within the last 12 months; the customer gave the LEC 2 or more checks which were returned unpaid for reasons other than bank error in the last 12 months; the customer did not pay bills by the close of business on the due date 2 times in a row or any 3 times in the last 12 months; during the last 24 months, the customer misrepresented his identity or other facts relevant to the conditions under which the customer obtained or continued service; the customer used service without authorization, tampered with the LEC's equipment, or inflicted damage to the LEC's equipment during the last 2 years; and the customer used more service than the estimate on which the LEC based the deposit.

When final discontinuation of service is made by the Company, the amount of the deposit, plus accrued interest, will be credited to the customer's account. A deposit shall automatically be refunded if a customer has for a consecutive 12 month period, paid all bills by the due date and rendered no check that was dishonored for reasons other than bank error.

DIRECTORY LISTING OPTIONS

Every customer may be listed once in the White Pages of the telephone directory without charge.

Enhancement options can be added for a small additional monthly charge.

- **Nonlisted Service:** Your name and telephone number would be available in directory assistance but not in the White Pages.
- **Nonpublished Service:** Your name and telephone number would NOT be listed with directory assistance or in the White Pages.
- **Additional Listings:** You can list the same number under a different name such as a roommate or spouse with a different last name. Fax Numbers, e-mail addresses and alternate call listings (i.e. after 5 p.m. call...) can also be included.
- **Bold-face or Highlighted Listings:** These options are available to bring attention to your business.

INSIDE WIRE MAINTENANCE PLAN

- Recreational vehicles, and other temporary or moveable structures are not covered;

TELEPHONE PROTECTION PLAN (TPP)

Our Telephone Protection Plan provides coverage for all of your eligible home telephones and Caller ID units against mechanical or electrical failure due to normal wear and tear or power surge. If your phone becomes inoperable for one of these reasons, you only make one toll free call to file a replacement request and a replacement phone is sent to you immediately for all covered requests. The process is convenient and easy. Call our Customer Contact Center for more information.

3. Account Summary - List of payments and credits to the account.

Any adjustment shall apply only to the period the interruption continues beyond twenty-four (24) hours after notice of the interruption is received by the Telephone Company. No other liability shall in any case attach to the Telephone Company. This failure of service applies only to local service within the subscriber's own exchange and does not apply to outages of toll lines or extended area service lines.

LOCATING THE PROBLEM

Telephone service problems can be caused by your equipment, the wire and jacks in your home or CenturyTel's network. We encourage you to follow the troubleshooting tips before you call our Repair Service to determine if the problem exists with the equipment and wiring in your home or with the network outside your home.

If the problem is found to be in CenturyTel's network (outside lines, switches etc.), the repair is completed at no charge.

If the source of the problem is your equipment or inside wire and jacks, a Maintenance Visit Charge may be accessed to fix your problem. A Maintenance Visit Charge applies when CenturyTel dispatches a technician who travels, at your request, to your home or business and finds the trouble to be in customer provided equipment or inside jacks and wiring. The Maintenance Visit Charge is not a repair charge; it is a fee for travel time. Repair of the equipment or wiring is based on the length of time the repair requires and the cost of materials used for repair.

SELF-CHECK/ TROUBLESHOOTING

Before contacting CenturyTel for repair, save time and avoid a service charge by double-checking your telephones to pinpoint the problem by using this simple, three-step checklist.

It's an Outside Line Problem if:

- There's no dialtone on all telephones.
- You cannot call in or out on all telephones.
- You get cut off when talking on all telephones.
- There's noise or static on all telephones.

It's an Inside Wire Problem if:

- A telephone works in one jack but not another.
- There's a loose or broken telephone jack.

It's a Telephone Problem if:

- The push buttons are stuck.
- The cords are worn.
- The cord clips are broken.
- The receiver buttons are stuck.

TECHNICAL STANDARDS FOR WIRING

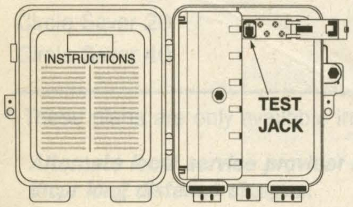
Telephone wire carries both voice and data modulation. This is 22 or 24 AWG (gauge) unshielded wire.

Category 3 - 4-pair quad conductor wire, up to 16 MHz-premises with one telephone number, voice and low speed data.

Category 4 - Up to 20 MHz - Voice and medium speed data.

Category 5 - Up to 100 MHz - Voice and high speed data.

TESTING WITH THE NETWORK INTERFACE DEVICE



See the inside cover of the NID for step-by-step instructions.

❶ Remove the modular plug from the test jack. Plug in a working single line telephone and wait 15-20 seconds.

❷ Lift the handset. If you get a dialtone, the problem is with your wiring or equipment. See troubleshooting tips. If you do not get a dialtone, call CenturyTel's Repair Service.

❸ Replace the plug in the test jack.

Alternate local service provider numbers, pagers and cellular telephone numbers may not apply. Dialing 1 + the area code may incur long distance charges.

LONG DISTANCE CALLING

DIRECT DIALING

Calls made without operator assistance are the most economical. Place the call by dialing 1 + the area code + the number and you will be charged the appropriate rate.

OPERATOR ASSISTED CALLS

There is an additional charge for calls requiring operator assistance. These calls are more expensive than calling card calls or calls dialed directly from your home or office.

When away from home, you can choose the long distance company you want to handle your operator-assisted calls. Many companies provide collect, person-to-person, third-number billed and credit card services. Their rates may vary. You may ask any operator for company identification and rate information before beginning your call.

Person-to-Person Calls

Dial 0 + the area code + the number. Tell the operator you're making a person-to-person call to a specific person. You will be charged for the call when that specific person answers. You can place a person-to-person call when you call collect, use your calling card, or charge your call to a third number.

Third Number Billing

Dial 0 + the area code + the number and tell the operator you want to charge your call to a third number. If you're calling from a public telephone, the operator will call the third number to make sure the charges will be accepted. The call will not go through if the operator cannot get approval.

Collect Calls

Dial 0 + area code + the number and tell the operator you are making a collect call. The operator will hang up when someone at the number you have called accepts the charges.

BUSY LINE VERIFICATION

Some operator service providers offer busy line verification. There may be a charge for this service.

TIME AND CHARGES REQUEST

Dial 0 + the area code + the long distance number and tell the operator you want time and charges. When you finish the call, a computerized voice will return to the line to tell you what you will be charged.

CENTURYTEL CALLING CARDS

CenturyTel offers calling cards for a 99¢ monthly administrative fee. You can enjoy the convenience of an 800 number that provides access to telephone service when you are away from home.

To place a call, dial the 800 access number noted on the front of your card. At the chime, enter your calling card number. You will then be prompted for the area code and number of the party you are calling.

If your calling card is lost or stolen, call our Customer Contact Center immediately. The customer is responsible for all calls made on a calling card.

SELECTING A LONG DISTANCE COMPANY

All telephone subscribers have the option to choose long distance companies for their 1+ calls.

IntraLATA long distance calls are calls that you place from your telephone to any community within your LATA that is not local (EAS.) InterLATA long distance calls are calls that you place from your telephone to any areas that are not considered local, EAS, or IntraLATA. Interstate calls are those that you place from your telephone to any location in another state. IntraLATA, InterLATA and interstate calls are long distance. The long distance company(ies) you have authorized will handle these calls.

"Equal access" allows you to choose the company you want to handle both types of calls. Once you have notified CenturyTel or your long distance provider of your choice, all your long distance calls will be automatically handled by this provider whenever you dial 1+ to make the call.

ARKANSAS RELAY SERVICE

The Americans with Disabilities Act, signed into law in July, 1990, requires that all telecommunications utilities provide access to their services by Teletypewriters (TTY). To make a Voice to TTY or a TTY to Voice call, a Relay Service must be available. Specially trained personnel, known as Communication Assistants (CAs) act as a go-between and "relay" calls between deaf, hard of hearing, or speech impaired persons and the parties they call.

In order to avoid the necessity of each telephone utility establishing its own Relay Service, nationwide each state has chosen to set up a single statewide Relay Service. Each statewide service must be accessible toll-free from anywhere in the state, and must provide 100% confidential, professionally handled calls.

There is no extra charge for using Arkansas Relay Service (ARS), which is available 24 hours a day, 7 days a week. Charges for long distance calls are made at tariffed discount rates as if the call was a direct call.

Numbers to use for ARS are **7-1-1** or:

HARASSMENT CALLS

- Hang up.
- DO NOT provide any information about yourself.
- Advise your children to do the same.

If the calls continue, contact the police and a CenturyTel representative for advice. Often, changing your number will resolve the problem.
(If available in your area, utilize Call Trace and report their number to the police. A charge may apply for this service).

900/976 NUMBER BILLING

This statement explains your billing error rights with respect to telephone-billed purchases made using interstate 900/976 pay-per-call services that are billed to you through CenturyTel. This information is provided under the Federal Telephone Disclosure and Dispute Resolution Act.

This is the procedure that you must follow to notify CenturyTel of a billing error and the steps that either CenturyTel or the long distance company must take in response to your notice. You may provide notice of a billing error to CenturyTel by telephone or in writing.

If you write, you should:

- Give us your name or the customer's name, and telephone number to which the charge was billed;
- Tell us the date and amount of the error, and the type of error you believe occurred; and
- Tell us why you believe it was an error.

You should contact CenturyTel first, since we have an agreement to receive billing error notifications from customers. You may provide a notice to the long distance company instead, and it may ask you to contact us directly, and provide to you our name, mailing address, and business telephone number, even if it also sent your billing error notice to us.

For billing error claims regarding 900/976 service charges:

Call the number on your bill listed with the 900/976 charges within 60 days of receiving the bill.

- Verbal notification is sufficient to begin a billing review.
- Payment of disputed 900/976 service charges is not required during the review period.

Written acknowledgement of your dispute must be provided to you within 40 days of receiving your notice if:

- The error has not been corrected or
- The billing review is not completed.

The billing review must be completed within 90 days and:

- An explanation must be provided to you if the bill was correct or
- You should receive a written notice of the amount you owe and the payment due date. If you fail to pay the amount that you owe, you may be reported as delinquent, but
- The name and address of any party to which you were reported for delinquency must be provided to you.
- If you do not agree with the explanation and if you so give notice before the payment due date, any delinquent report must state that you dispute the claim.
- Any party receiving the delinquent report must also be advised in writing when the matter is settled.

If these rules are not followed, the first $50.00 for each 900/976 service charge in question cannot be collected even if your bill was correct.

The Interexchange Carrier or Information Provider may pursue collection of unpaid 900/976 charges through an independent collection action.

Nonpayment of 900/976 service charges or charges for similar types of service will not result in disconnection of your local or long distance service. However, access to 900/976 numbers may be blocked for nonpayment of legitimate charges. You should not be billed for 900/976 services that are not offered in compliance with federal laws and regulations.

You may obtain blocking of 900/976 services at no charge by calling our Customer Contact Center at the number listed on your telephone bill.

TELEMARKETING CALLS

Avoid the frustration sometimes associated with telemarketing calls by following these five steps:

- Find out who is calling; always secure the name of the company and individual with whom you are speaking.
- If you are interested in the product or service the caller is offering, request that information be sent to you via mail. Specify that you are not agreeing to purchase anything, but would like to review the information in writing.
- If you are not interested, politely interrupt the caller and end the conversation.
- If you are sure you do not wish to receive future solicitations from that company, ask to be removed from the company's list.
- DO NOT GIVE YOUR CREDIT CARD NUMBER unless you are certain the call is legitimate.

To reduce the number of telemarketing calls you receive from national companies, write to:

DMA Telephone Preference Service
P. O. Box 643
Carmel, NY 10512

You may place your telephone number on the **National Do Not Call Registry** by calling **1-888-382-1222, (TTY 1-866-290-4236)** or on-line at WWW.DONOTCALL.GOV.

CUSTOMER INQUIRIES

A customer may verify the accuracy of a bill by contacting the Customer Contact Center. Our representatives are trained to handle customer inquiries promptly. Please contact our service representative and state your complaint. If you have a suggestion for resolving the complaint, please state it. Write down the name of the person to whom you talked.

If your complaint is not handled to your satisfaction, you may appeal to the service representative's supervisor.

The certificate may be renewed one time for an additional 30 days. The contents of the certificate must identify the medical condition, specify the effect of discontinuation of service, and specify the time during which discontinuation of service will aggravate the medical emergency. This certificate must be presented to the utility within 7 days. During the period that discontinuation of service is delayed, the residential customer shall be liable for all service rendered by the utility.

The Company may not require more than 1/4 of the overdue bill as the down payment in order to enter into a delayed payment agreement. The Company shall allow the customer to make equal installment payments for at least three months from the date of the down payment. The down payment shall not be considered an installment payment.

1. The International Access Code — 011
2. The Country Code
3. The City Code
4. The local telephone number
5. The "#" key — where telephone is equipped with Touchtone dialing. This will speed your call along.

For example, to make a call to the city of London, you would dial:

011	**+ 44**	**+ 20**	**+ ___**
International Access Code	**Country Code**	**City Code**	**Local Number**

If you subscribe to a long distance service, call your supplier for dialing instructions.

OPERATOR-ASSISTED CALLS

To dial operator-assisted international calls, dial in sequence:

1. The International Access Code — 01
2. The Country Code
3. The City Code
4. The local telephone number

For example, to make an operator-assisted call to the city of London, you would dial:

01	**+ 44**	**+ 20**	**+ ___**
International Access Code	**Country Code**	**City Code**	**Local Number**

If you subscribe to a long distance service, call your supplier for dialing instructions.

Some countries have increased the number of digits included in their local numbers beyond that supported by many telephone company's networks. This primarily affects new telephone numbers. In general, numbers that are already assigned will not be affected. If you have difficulty completing a direct-dialed international call, please contact your international operator or dial 0 for assistance.

EMERGENCY PREPAREDNESS

Emergencies and disasters can occur anytime, anywhere. Some are primarily seasonal and allow for certain preparations, other occur without warning. Planning ahead and making provisions for your family's needs can make a big difference in your ability to cope with emergencies. Detailed information on emergency preparedness is available from the American Red Cross and city and county agencies.

FLOODS AND FLASH FLOODS

Floods claim an average of 263 lives every year. Flood waters only one foot deep can sweep you off your feet. If you live in a flood-prone area, it is important to be prepared in case flooding does occur. Determine your nearest safe area above flood waters. Develop an evacuation plan. Remember that many roads, bridges, and existing drainages may be swept away by flood waters.

A flood WARNING means flooding is occurring or will occur soon. **If the National Weather Service issues a flood WARNING for your area, you should:**

- Turn off your utilities if your home is likely to be flooded.
- Fill your car's gas tank.
- Evacuate if you are told to do so. (See the following section on evacuation procedures.)

Flash floods are rapidly developing floods that can happen with little or no warning. Flash floods are most often caused by intense rainfall, severe thunderstorms, or breaks in a dam, levee, or dike. A flash flood WARNING means you may have only a very short time to escape. A flash flood can happen so rapidly that you may not even get a warning. **If the National Weather Service issues a flash flood WARNING for your area or if you suspect a flash flood is occurring, you should:**

- Leave low-lying areas immediately.
- If you are driving, stay away from creeks and open ditches. If your car stalls in rapidly rising waters, abandon it IMMEDIATELY and climb to higher ground. The rushing waters from floods and flash floods are extremely dangerous.

Remember:

- Police barricades are there for your protection. DO NOT DRIVE AROUND THEM.
- Flood waters covering roads and bridges have more force and power than you think.
- Walking or driving through flood waters is the most dangerous thing you can do.

EVACUATION PROCEDURES

You will receive instructions to evacuate the area in one of the following ways:

- The Emergency Alert System (EAS).
- A uniformed agent of law enforcement or the fire service will contact you.
- Mobile sirens, police, fire or other PA systems will be used to alert you.

Shelters will be available for residents who cannot stay with friends or relatives in other areas. The Red Cross has prearranged shelter sites throughout the community. If shelters need to be opened for emergency housing, listen to the EAS for the exact locations.

If there is time, take a moment to gather a few important items you may need. Do this as quickly as possible and leave as soon as you can.

IF YOU CAN, BRING THESE ITEMS WITH YOU:

- Prescription drugs.
- Food–if needed for a special diet.
- Eyeglasses or contact lenses.
- Change of clothing.
- Personal items–toilet articles, documents, photo albums.
- Bedding–sleeping bag, pillow, blankets.
- Baby or child supplies–diapers, food, toys.
- Money, credit cards, checks.
- Proper identification.
- Pets–provisions will be made for pets. They will stay in separate housing, but bring food if possible.

TORNADOES

If you see or hear a tornado, seek shelter immediately. Bring a portable radio for news and weather updates. Lie flat and protect your head and eyes.

Here are some guidelines for seeking shelter:

In homes: Stay away from windows, doors, and outside walls. Go to the basement. If the house doesn't have a basement, go to a first-floor bathroom, closet, or another room at the center of the house. If possible, get under heavy furniture or cover your head with blankets or pillows.

The information on the following pages is provided as a courtesy to the readers of this directory. CenturyTel assumes no liability for damages arising from the use of the information printed on these pages. In any emergency, contact your local authorities. Emergency numbers are printed in the front of this directory.

EMERGENCY PREPAREDNESS

In schools: Stay away from windows and large areas such as auditoriums and gymnasiums. Go to the basement. If there is no basement, go to a small interior room or a hallway on the lowest floor.

In public buildings: Stay away from windows. Don't go to your car. Go to a designated shelter area or to an interior hallway or a small room on the lowest floor.

In mobile homes: Get out immediately. If there isn't a reinforced building or underground shelter nearby, take cover in a ditch or valley.

NUCLEAR PLANNING AND RESPONSE

What is radiation?

Everything on earth is made of tiny particles called atoms. Some atoms give off energy. This energy is called radiation. Radiation is a form of energy that moves in waves or particles. It is found throughout the natural environment in the form of light, heat and radio waves. Nuclear radiation comes from radioactive material, such as uranium. There are also naturally occurring radioactive atoms in everything in the environment, even your own body. While you cannot hear, see, feel, taste, or smell radiation, it can easily be detected with special equipment. Radiation is a very natural part of our daily world. We all receive very small amounts of radiation each day from the air, food, the earth, and building materials. We are also exposed to radiation from other sources such as x-rays used by doctors and dentists and from consumer products such as TV sets. The amount of radiation that a person gets is measured in millirems. In Arkansas, the average radiation exposure from naturally occurring and man-made radiation is up to 180 millirems per year. Most studies indicate that radiation exposure of up to several thousand millirems per year, results in no measurable effect.

What is an emergency?

An emergency at a nuclear power plant could be caused by many things. State and local officials will be notified of any emergency that could cause the nuclear plant to become unsafe. There are four classes of emergencies at nuclear power plants:

NUE – Notification of Unusual Event is the least serious emergency class. It means that something out of the ordinary has happened. People living in the area should not have to take any action.

ALERT – this class means plant safety could become a problem. State and local officials will go to their emergency centers to follow the situation. The general public should not have to take any action.

SAE – Site Area Emergency, means the public might be affected. You should hear the Emergency Warning System. Tune in to your local radio stations for information. State and local officials will take action to protect those living in the area.

GE – General Emergency, is the most serious emergency class. State and local officials will take action to protect people in the area. Stay tuned to your local radio stations for instruction.

Within 15 minutes of the time an emergency is declared at Arkansas Nuclear One, Entergy Operations, Inc. must notify state and local officials. Through use of the Emergency Warning System, state officials can notify the public of an emergency within 15 minutes. You will hear a steady siren signal lasting about 3 minutes.

PLEASE STAY CALM!

When you hear the sirens, listen to one of these local radio stations for information:

What about Sheltering?

Sheltering means to stay indoors. Close all doors and windows. Turn off sources of outside air. Close the fireplace flue if not in use. Remain indoors until told it is safe to go out. Use the telephone only for medical, fire or other extreme emergencies. If traveling in a vehicle, close winders, air vents and put the air conditioner on the maximum setting if needed. Always listen to your local radio station or NOAA weather radio for further instructions.

What about staying indoors?

Staying indoors simply means to do that: stay indoors. It is similar to sheltering, but instead of turning off air conditioning and heat, you leave them running if necessary. Since mid-summer heat in Arkansas can often climb above 100 degrees, closing your home without air conditioning could present more of a health hazard than the one presented by a release at ANO. The filters in your home's heat and air system will act to filter some of the radioactive particulates that might be in the air in your areas because of a release at the nuclear plant. The Health Department believes this to be a logical and safe alternative to sheltering during weather extremes.

EMERGENCY PREPAREDNESS

EVACUATION PROCEDURE

Look at the map on page 27 and find out which Care Center you would go to and how you would get there. If an evacuation begins, don't rush, you'll have time. When you leave home, tear out the "NOTIFIED" tag from the back of your Emergency Instruction Brooklet. Attach the tag to the front of your home so officials will know you have gone. As you leave the area, tell a neighbor about the evacuation. They may not know about the evacuation and may need a ride to a Care Center. You may need to stay at the Care Center for two or three days. This will depend on conditions at the plant. Listen to the radio for current information.

HOME SAFETY TIPS

Sheltering means to stay indoors. Close all doors and windows. Turn off sources of outside air. Close the fireplace flue if not in use. Use telephones only for medical, fire, or extreme emergencies. Remain indoors until told it is safe to go out. If traveling, close auto windows and vents and put air conditioner on maximum, if needed. Listen to you local radio station for further instructions.

SCHOOL EVACUATION PROCEDURES

Schools will be notified before the general public and students will be taken to a Care Center. Parents should not attempt to pick up their children at the schools since this will create a traffic problem. Once children are registered at the Care Center, they may leave with a parent or legal guardian. If it is necessary, students will be monitored for radioactive contamination.

What about my pets?

For reasons of health and safety, it is strongly recommended that pets not be brought to any designated care center, however, it may be necessary under certain circumstances to do so. To facilitate the reasonable accommodation of common household pets, measures designated to assure a safe stay at the center are required. While pets will not be allowed inside the actual care center, facilities will be provided for the housing of your pet. Animals should be transported in, and remain housed in, portable containment devices while at the care center. Care for these animals, such as providing food and water, will be the responsibility of the owner. Veterinary care needed by individual animals will be provided by the pet's owner. Liability for any harm or damage caused any animal while at the care center will also be the responsibility of the owner.

COMMUNITY SPOTLIGHT

ARKANSAS RIVER VALLEY

The Arkansas River Valley is one of the most beautiful areas of The Natural State. Nestled in between the Ouachita and Ozark Mountain ranges, the River Valley is an area of remarkable heights, scenic highways, winding rivers, lakes and streams plus plenty of activities, events and attractions for visitors of all kinds.

Clarksville is nestled along Spadra Creek in the Arkansas River Valley, between the Ozark foothills and the Arkansas River. It is the County Seat of Johnson County. Named after early settler and businessman Lorenzo N. Clark, the city was incorporated in 1848. The original town plot followed that of a traditional court square design. Many buildings from the 19th century remain along the square and downtown streets. Clarksville is home to the University of the Ozarks, the Ozark Mountains and the Arkansas River, allowing for plenty of recreational opportunities.

Dardanelle is the oldest town between Little Rock and Fort Smith, and is located on the Arkansas River. It is a town rich with history beginning in 1820 with the signing of the Council Oaks Treaty. This treaty, signed under the shade of the two oak trees located downtown, saw the Cherokee Indians relinquish all claims to land they held south of the Arkansas River. Dardanelle is also the sight of the first lock and dam, paving the way for social and economic growth in the area. Holla Bend National Wildlife Refuge and Mount Nebo State Park offer many recreational activities to visitors.

Russellville is known as the "Heart of the River Valley," nestled under the shadows of the Ozark Mountains. The town is named after Dr. Thomas Russell, who came to the prairie in 1835, and by 1842, a small village had grown around Russell's place. Townspeople figured the town should have a name, and since the Russells inhabited the first house, the town became known as Russellville. Known for its scenic beauty, and many lakes and streams, Russellville is home to the Bona Dea Trails and Lake Dardanelle State Park. For those interested in museums, the Arkansas River Valley Arts Center and the Museum of Prehistory and History, on the Arkansas Tech University campus, can be found within the Russellville city limits.

The Council Oaks are 400- to 500-year-old white oak trees under which a Cherokee Indian Chief signed the treaty giving all land south of the Arkansas River to the territory in 1820. The treaty was signed under two giant white oak trees, and became known as the Council Oaks Treaty. Extensive research has determined the Council Oaks are the oldest white oak trees in Arkansas and one existed long before Columbus set foot on this continent.

Arkansas Tech University, founded in 1909, is a multipurpose, state-supported institution of higher learning dedicated to providing an opportunity for higher education to the people of Arkansas. The University offers a variety of programs dedicated to excellence in undergraduate and graduate studies. These programs are designed to prepare students to meet the demands of an increasingly competitive and challenging future by providing opportunities for intellectual growth, skill development and career preparation. The 517-acre campus has a new $90 million improvement program, which has added the Ross Pendergraft Library and Technology Center–an information center for the entire community–as well as the University Commons apartment complex and the L.L. "Doc" Bryan Student Services Center. All of these facilities were specifically designed to encourage and promote the learning experience.

There are plenty of leisure activities on campus. Tech has a highly competitive and successful athletics program. This NCAA Division II Gulf South Conference-affiliated school produces championship teams in a variety of sports for men and women. A well-organized intramural program offers beginners the chance to participate. Campus concerts and movie nights are offered regularly as well. There is always something to do at Tech.

All of these aspects, put together, lead to the well-rounded education that Arkansas Tech University promises to provide.

UNIVERSITY OF THE OZARKS
415 N. College Avenue
Clarksville
1-800-264-8636
www.ozarks.edu

University of the Ozarks is a private, four-year comprehensive university of approximately 700 students located in Clarksville. The Presbyterian-affiliated university has roots dating back to 1834, making it the oldest institution of higher education in Arkansas and one of the oldest west of the Mississippi River. The picturesque 30-acre campus sits atop College Hill and is anchored by the historic Munger Chapel, a Gothic-style, limestone cathedral that has stood as the spiritual heart of the campus since 1933. Another landmark building is Walker Hall, a new, three-story, state-of-the-art facility marked by expansive limestone columns, which houses the teacher education and communications programs. In its long and storied history as a trendsetter in higher education, Ozarks was the first college in Arkansas to admit women (1872), the first predominately white college in Arkansas to graduate an African-American (1959), and the first college in the nation to develop a support program for students with learning disabilities (1971). Ozarks offers more than 25 academic majors in the areas of business, education, communications, the humanities, fine arts, the sciences, math and government.

CLASSIFIED DIRECTORY

The Berry Company ("Berry") publishes directories on behalf of CenturyTel. Those directories include classified, or "Yellow Pages", sections. The Yellow Pages contain the listings of area telephone subscribers, classified under one or more directory headings for the purpose of identifying the nature of their business or profession. Berry and CenturyTel assume no responsibility for errors or omissions with regard to any free listings, or with regard to Yellow Pages listings. Such errors or omissions of free items may be corrected in a subsequent issue if reported by letter to Berry. Liability for errors or omissions in paid-for listings and advertising, which includes Yellow Pages listings, is limited to, and shall not exceed, an abatement of the charges for such listings or advertising during the life of the directory.

Certain businesses or professions are subject to regulation by various governmental bodies or regulatory agencies, which require special approvals or the issuing of a license to do business. The regulation of those businesses and professions may also govern the manner and content of the advertising in the directory. It is solely the responsibility of those advertisers to assure their advertising complies with any regulation to which they are subject. Neither Berry nor CenturyTel assumes any responsibility or obligation that the organization of the directory or any advertising appearing in the directory comports with any regulatory scheme to which any advertiser is subject. Neither CenturyTel nor Berry warrant or represent that the professions and businesses listed in the Yellow Pages are validly authorized or licensed to do business. Questions relating to whether a subscriber advertising in the Yellow Pages is duly authorized or licensed should be directed to the appropriate governmental body or regulatory agency responsible for regulating such a business or profession.

Prices, percent discounts and offers listed in advertising, are listed at the advertiser's request. The advertiser is solely responsible for its content and obligation of fulfillment.

All real estate advertised herein is subject to the Federal Fair Housing Act of 1968 which makes it illegal to advertise "any preference, limitations, or discrimination based on race, color, religion, sex, or national origin, or intention to make any such preference, limitations, or discrimination."

Berry and CenturyTel will not knowingly accept any advertising for real estate, or any dwelling, which is in violation of the law. All persons are hereby informed that all real estate or dwellings advertised are available on an equal opportunity basis.

If you've been injured in an accident that wasn't your fault, I know you're concerned about getting your medical bills paid...about whether your injuries will be fairly compensated...about not hearing from anyone...and about being compensated for your injuries.

My name is Callis Childs. And I'm a personal injury attorney who has helped recover millions of dollars for clients just like you as fair and just compensation for injuries they've suffered because of someone else's negligence.

Without hassles and frustrations on your part. Because we deal with all the issues for you.

First, let me tell you the . . .

3 Mistakes You Should Never Make

1) **The most common health mistake you could regret for years:** not getting treated for your injuries. Without treatment you're going to be laid up longer than you need to be. And it makes any claim you file look fake if you wait.

2) **Trying to take care of the injury claim yourself.** The problem with your doing this yourself is that you do not know what to do to protect yourself. I can virtually promise you, if you try to handle it yourself, you will be taken advantage of.

3) **Not getting fully compensated for your injuries.** An attorney experienced in personal injury cases can get you more compensation in your pocket than you can get by yourself.

We Tell Secrets: Straight Answers To Your Legal Questions

There's a lot more I could discuss with you and would like to discuss with you, but that should really be done face-to-face. So I'd like to do something special for you . . . **absolutely free of charge and without further obligation.**

At your evaluation you'll learn:

- ✓ **What precise steps we take--and when--to get you fairly compensated for your injuries;**
- ✓ How we get your medical bills paid for your injuries;
- ✓ **How we get your injuries fairly compensated;**
- ✓ How we'll handle the entire process for you, so you don't have to go through the stress;
- ✓ **Why you should start your case as soon as possible.**

For even more information, see my web-site at **www.arkansas-injury-lawyer.com.**

Plus, you might like to know that I only get a fee if I successfully get you a settlement.

So call me today at 501-327-1700 or 1-800-909-4530 and let me and my professional team lend you a hand, too, to recover the compensation you are fully entitled to for your injuries.

Weddings are one of the most important days of the bride and groom's lives. Months of preparation and planning go into creating a unique celebration of the wedded couple's love. Pressure to fashion the "perfect day" can lead to stress and anxiety. A well organized and thought out event will be much more enjoyable than one that is disorganized and chaotic. One Month Before:

- ☐ Have a final fitting for your bridal gown
- ☐ Get marriage license
- ☐ Make sure you have all accessories: toasting goblets,
- ☐ ring pillow, garter, candles, etc.
- ☐ Buy your wedding bands
- ☐ Make reservation for bridesmaids luncheon

Two Weeks Before:

- ☐ Reconfirm the accommodations for out-of-town guests
- ☐ Discuss with hairstylist your look for wedding day
- ☐ Verify bridal party attire
- ☐ Send wedding announcement to newspapers
- ☐ Make arrangements for name and address change

One Week Before:

- ☐ Give the final count to caterer and review details
- ☐ Go over final details with all professional services
- ☐ Give photographer the list of pictures you want
- ☐ Plan seating arrangements
- ☐ Pack for the honeymoon
